LIGHTED CABINETS

Where Beauty Meets Function

Aurora ™

P03-P10

The pinnacle of plumbing excellence, Aurora offers luxury and performance with timeless designs and premium materials. Enjoy flawless craftsmanship, advanced features, and intuitive control for a new standard of opulence.

Beacon ™

P11-P16

A beacon of luxury plumbing innovation, this series combines radiant design with cutting-edge technology for superior performance, durability, and energy efficiency. Beauty meets function in every fixture.

NEW

Linea ™

P17-P24

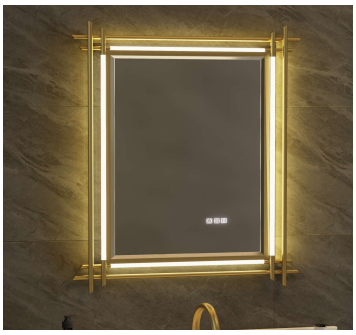
The Linea collection redefines simplicity through precision. Two cabinet sizes and minimalist side lighting combine to form an adaptable system that aligns beautifully with any space — from compact vanities to wide, architectural installations.

LIGHTED MIRRORS

Dreamscape ™ I

P27-P30

Transform your space with Dreamscape I mirrors, blending artistic illumination with refined craftsmanship. Embrace serenity and sophistication as these mirrors become a stunning centerpiece in your décor.



Dreamscape ™ II P31-P34

Dreamscape II，blending contemporary design and practical illumination. These luxurious, versatile mirrors transform any room into a serene sanctuary of calm and inspiration.

Dreamscape ™ III P35-P38

Discover Dreamscape III mirrors with advanced backlighting technology. This feature creates a soft, ambient glow with a halo effect, offering glare-free illumination ideal for makeup, shaving, and adding a touch of sophistication to your space.

NEW

Dreamscape ™ IV P39-P42

The Dreamscape IV centers on intelligent design and precision craftsmanship. By integrating all user controls within its metal frame, Core delivers a mirror experience where every detail is deliberate, and every function feels intuitive.

NEW

Lustrara Edge ™ P43-P46

Lustrara Edge introduces a sleek, contemporary update with precision edge-lit illumination. The refined perimeter lighting delivers a crisp, balanced glow that enhances clarity and adds a striking visual frame to any space. Designed for today's modern interiors, Lustrara Edge combines luxurious brightness, intuitive touch controls, and advanced dimming technology to create a mirror that is as functional as it is beautiful.

NEW

Lustrara Glow ™ P47-P52

Lustrara Glow brings a graceful evolution to the Lustrara collection with its gently rounded corners and refined edge-lit illumination. This design softens the profile while maintaining the signature brilliance and performance of the series. The result is a warm, inviting glow that transforms any bathroom or dressing area into a serene, spa-like retreat.

VANITIES

Brunswick ™ NEW

P57-P70

The Brunswick Collection brings together the warmth of natural wood with the strength of metal, delivering a refined, transitional style with an American sensibility. Clean lines, mixed materials, and versatile finishes make it a standout in any space.

Chesterton ™ NEW

P71-P82

The Chesterton Collection blends traditional charm with modern luxury. Each vanity is handcrafted from solid wood and built to endure with water-resistant finishes and humidity-resistant construction

Gatsby ™

P83-P88

Elevate your space with Gatsby, where 1920s opulence meets mid — century modern design. This statement piece blends Jazz Age decadence with sleek, clean lines, crafted from premium materials for lasting luxury. With flawless Metal accents, Gatsby adds a touch of brilliance and sophistication to any bathroom.

Legacy ™

P89-P104

A blend of timeless design and superior craftsmanship, the Legacy Vanity offers enduring beauty and functionality. Its versatile style suits both transitional and contemporary homes, making it a true legacy of elegance.

Serenity ™

P105-P110

Create your personal oasis with Serenity Vanity. Its clean lines and calming design offer a tranquil atmosphere for both starting your day and unwinding after it. Choose from a variety of top, bottom shelf, and side storage options to tailor your vanity to your unique style and functional requirements. Serenity brings a touch of tranquility and relaxation to your bathroom.

FREESTANDING BATHTUBS

Duoello ™ NEW

P117-P122

Duoello’s unique double slipper silhouette provides two elevated ends, creating a spacious, symmetrical shape that invites you to relax in ultimate comfort, offering the perfect balance of sophistication and indulgence for your bathing experience.

Ellipso ™

P123-P128

Indulge in the luxury of Ellipso's organic form and durable craftsmanship.Whether unwinding after a long day or starting your morning with a rejuvenating soak, Ellipso promises to enhance your bathing ritual with unparalleled comfort and timeless sophistication.

Flutello ™

P129-P134

Elevate your bathroom with Flutello and immerse yourself in the sculpted luxury of its fluted design. Inspired by the timeless elegance of fluted architectural elements,Flutello embodies a luxurious aesthetic that elevates bathroom decor.

Ovello ™

P135-P142

Ovello's oval contours and durable craftsmanship provide a sanctuary for personal wellness. Whether unwinding after a long day or starting your morning with a refreshing soak, Ovello promises to elevate your bathroom to new heights of relaxation and refinement.

Recto ™

P143-P148

Transform your bathroom into a sanctuary of relaxation and style with Recto. Embrace the elegance of its clean lines and timeless design and indulge in a bathing experience that exceeds expectations of luxury and comfort.

Square Flutello ™ NEW

P149-P154

With its sleek square silhouette, the Square Flutello retains the luxurious fluted detailing of the original while offering a more contemporary, angular form that redefines the bathing experience. Inspired by the enduring charm of fluted architectural elements, the Square Flutello adds depth and texture to any bathroom, serving as a statement piece that complements both modern and traditional aesthetics.

Quality and Safety Features

- ETL certified to meet UL962 and CSA C22.2 standards for safety and quality
- GFCI device meets UL943 and CSA C22.2 standards for safe use of outlets in the high humidity
- BelloDual ™ : Dual wall aluminum construction, engineered with superior strength and durability to support significantly higher weights
- SafetyMirror ™ for safe use, also ideal for high humidity environment
- IP44 rating is suitable for bathroom use
- UL certified 14 AWG cable
- Tempered glass shelves for safe use

Innovative Features

- **BelloDual ™**

  Bellodual ™ defines the durability and versatility of our medicine cabinets. Bellodual ™ 's design features a dual-wall aluminum construction, delivering a robust frame engineered to support higher weight-bearing loads with ease. This innovative design allows each medicine cabinet to be seamlessly crafted as a single, cohesive unit, regardless of its width. With BelloDual ™ , you get unparalleled strength and stability combined with a sleek, unified construction for performance.

- **SafetyMirror ™**

  Our innovative tempered mirror is designed for enhanced safety and durability to resist dangerous breakage and shards. Each mirror features a protective film backing, which can bond the broken pieces or shards together to ensure a safe environment in case the mirror is broken. The cooper free silver mirror is durable and free of rust stains or black spots, and ideal for high humidity environment. With a sleek, modern design, it offers a flawless reflection while perfectly balancing practicality and sophistication. Elevate your space with style and peace of mind!

- **CornerBright ™**

  Our innovative solution that eliminates dark areas in mirror corners. This distinctive construction ensures even brightness throughout, providing a well-lit reflection without shadows. Experience the difference with perfectly illuminated corners that enhances your space and elevate your daily routine!

- **HaloTech ™**

  Our patented construction and unique dual-lighting system allows for front and back illumination, giving you the freedom to switch between three modes: simultaneous frontlit and backlit, frontlit only, or backlit only. This versatility ensures optimal lighting for every situation.

- **MagniFlex ™**

  Our patented MagniFlex ™ is an adjustable 5x amplifying LED makeup mirror, that is connected by magnet to the cabinet door. The mirror can be moved to the appropriate height suitable for each individual. The light around the magnifying mirror maintains consistency in color temperature and brightness with the cabinet light, ensuring a harmonious and practical lighting experience.

Dreamscape ™ IV

The Lustrara Core centers on intelligent design and precision craftsmanship. By integrating all user controls within its metal frame, Core delivers a mirror experience where every detail is deliberate, and every function feels intuitive.

Functional Features

Vertical/horizontal mounting

Easy installation

Concealed touch-controls

Frontlit

Backlit

Dual, frontlit and backlit

- **Dimmable LED light**
  Provides infinite adjustability for customized brightness

- **Defogger&Auto turn off**
  Built-in defogger ensures visibility in high humidity. Auto turn off provides energy efficiency

- **Enhanced brightness**
  Premium quality LED strips, more LED beads per liner length make it look much brighter

- **Color temperature adjustment**
  Temperature can be infinitely adjusted from 3000K (Warm) to 6000K (Cold)

- **Auto memory function**
  Saves previous settings for next use

- **Concealed touch-controls**
  Concealed touch-controls under frame provides clean appearance on the mirror

- **Easy installation**
  Single strip hanging bar included, it can be hung vertically or horizontally as you prefer

- **Beveled mirror glass**
  The beveled mirror enhances the design

- **Construction**
  Manufactured from Aluminum frame

- **Available in multiple finishes**
  Matte Black (BK), Brushed Brass (BB)

- **HaloTech ™**
  Three modes: simultaneous front and backlit, frontlit only, or backlit only

  No visible seam in the corner

- **Broad range of sizes**

  Width available from 20 to 96 inches

Lustrara Glow ™

Soft Curves, Radiant Ambiance

The Lustrara Glow brings a graceful evolution to the Lustrara collection with its gently rounded corners and refined edge-lit illumination. This design softens the mirror′s profile while maintaining the signature brilliance and performance of the series. The result is a warm, inviting glow that transforms any bathroom or dressing area into a serene, spa-like retreat. Perfect for those who favor subtle curves and soothing light, Lustrara Glow redefines contemporary elegance with a touch of softness.Available in multiple sizes and configurations to suit any luxury environment.

VANITY COMMON FEATURES

- **Premium soft-close full extension drawer glides**

  Offers you a smooth and quiet drawer close

- **Resistant to high humidity environments**

  Superior craftsmanship and materials resist humidity to eliminate warping

- **Certifications**

  cUPC certified sinks, and Mass Code approved

- **Solid wood construction**

  All designs are constructed, assembled and finished by hand using the kiln-dried hardwoods, plywood and wood veneer lamination

- **Drawers**

  Constructed with solid wood with dovetail joints

- **Water-resistant coatings**

  The vanity is finished inside and outside by the water-resistant coatings for superior moisture resistance

Brunswick ™

Transitional Design with a Modern Edge. The Brunswick Collection brings together the warmth of natural wood with the strength of metal, delivering a refined, transitional style with an American sensibility. Clean lines, mixed materials, and versatile finishes make it a standout in any space.
Available in 30", 36", 48" and 60" sizes, Brunswick features solid wood construction, water—resistant finishes, and humidity—resistant craftsmanship for long-lasting beauty and durability. Metal legs add an architectural touch, while your choice of Whitewashed Oak, Natural Oak, or Walnut finish ensures a perfect fit for any style.

Chesterton ™

Timeless Craftsmanship. Effortless Elegance.

The Chesterton Collection blends traditional charm with modern luxury. Available in 30", 36", 48" and 60" sizes, each vanity is handcrafted from solid wood and built to endure with water-resistant finishes and humidity-resistant construction.Choose from four rich finishes—White, Whitewashed Oak, Walnut, and Natural Oak—and three hardware options: Black, Polished Chrome, or Brushed Gold. Paired with a white or black marble composite top (with backsplash and pre-installed cUPC-certified sink), Chesterton is both beautiful and built for real life.

Gatsby ™

The Gatsby collection invites you to indulge in the elegance and charm reminiscent of the Great Gatsby himself, while embodying the clean, sophisticated lines celebrated in mid—century modern design. Gatsby transcends functionality to become a statement piece in luxury plumbing. Crafted with meticulous attention to detail, the metal accents adding a touch of opulence to every bathroom setting Gatsby captivates with its bold juxtaposition of black and white hues. This harmonious blend creates a timeless elegance that complements any interior style from classic to contemporary.

Features

- **LED under cabinet lighting**

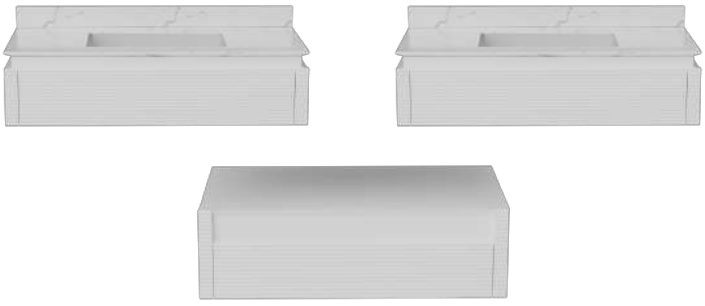
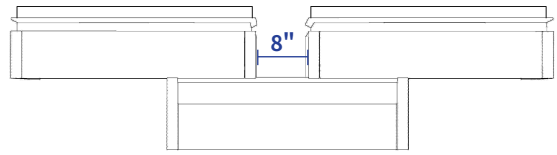
Visit us at www.bellousa.com to explore the full range of modular options and find your perfect fit.

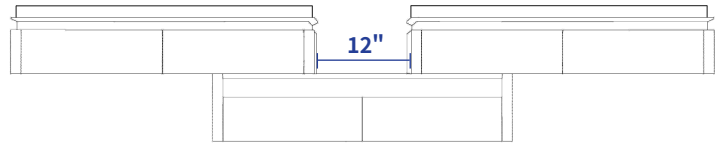
Top Stack A



For example



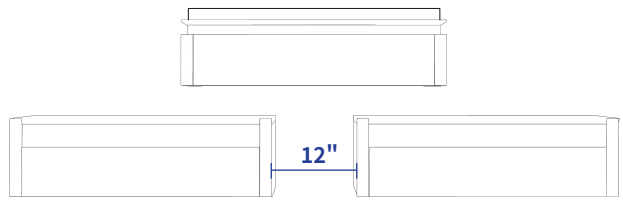
80"vanity= 36"vanity top + 8"space + 36"vanity top +48"vanity bottom



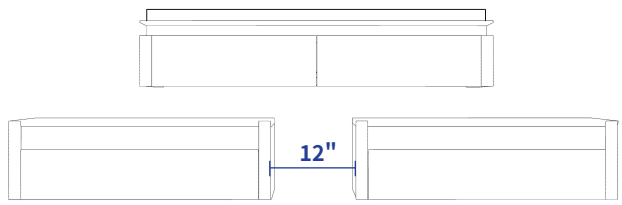
108"vanity= 48"vanity top + 12"space + 48"vanity top +60"vanity bottom

Bottom Stack B

For example

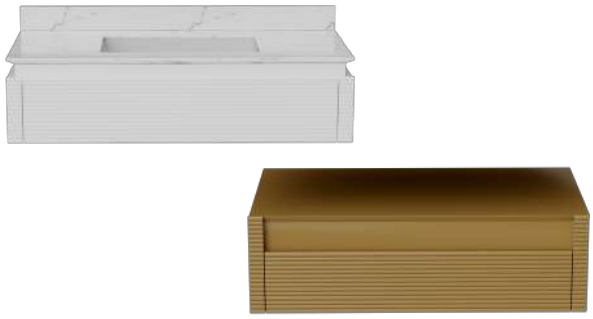


84"vanity = 36"vanity bottom + 12"space +36"vanity bottom + 48"vanity top

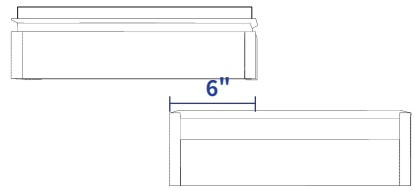


84"vanity = 36"vanity bottom + 12"space +36"vanity bottom + 60"vanity top

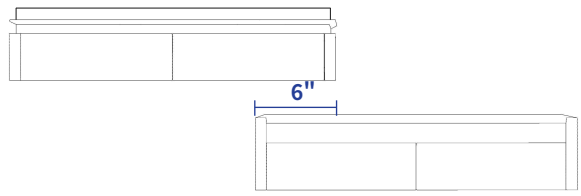
Offset C



For example



66"vanity = 36"vanity top + 6"overlap + 36"vanity bottom



90"vanity= 48"vanity top + 6"overlap + 48"vanity bottom

FREESTANDING BATHTUBS COMMEN FEATURES

Bellocast ™ material

RapidDrain ™

Safecoat ™

INNOVATIVE FEATURES

- **Bellocast ™ material**

  Our innovative and patent material used in the creation of bathtubs, known for its lightweight,slip resistant,easy cleaning and durable properties. Bellocast ™ material has natural beauty similar to stone and has textures in satin finish that mimics the feeling of stone and naturally slip resistant. This innovative composite allows the integration of color into both the interior and exterior of bathtubs, enabling the formation of uniquely shaped and designed products while combining advanced composite material and fillers to achieve exceptional strength and versatility.

- **RapidDrain ™**

  The integral overflow is a unique design and does not require an overflow ring to cover the overflow hole, which remains the beauty of the bathtubs. The overflow is specially engineered to have much wider drain channel and the overflow speed is 9.25 gal/min same as drain. You can enjoy a deep soak without worrying about spillage. Where the overflow's beauty meets its quick overflow's function.

- **Safecoat ™**

  All Bello bathtubs are handcrafted with an innovative hydrophobic coating made in the USA, certified free from chemicals known to the State of California to cause birth defects or reproductive harm. This ensures a safe and toxin-free environment for your skin. The hydrophobic properties make the bathtubs easy to clean and dry, and with regular maintenance, the coating can last at least 10 years. Enjoy peace of mind and effortless upkeep with Bello bathtubs.

- **DyeIn ™**

  The colors of all Bello bathtubs are seamlessly integrated into the composite material for both the interior and exterior, eliminating the need for paint. Dyein ™ eliminates the worry about scratches, peeling, color fading, or any potential hazards to your skin. Enjoy the lasting beauty safety and tranquility of Bello bathtubs without compromise.

FUNCTIONAL FEATURES

- **Certifications**
  cUPC certified in compliance with CSA B45.5/IAPMO Z124, and Mass Code approved

- **Easy to clean**
  Bellocast ™ material is water, grease and stain resistant, so it is easy to clean and requires little maintenance

- **Durable and remain new**
  Bellocast ™ material produces very hard surface, so it is scratch resistant, impact resistant and flame resistant

- **Slip resistant**
  Bellocast ™ material has natural textures similar to stone in satin finish that mimics the feeling of stone and naturally slip resistant

- **Full immersion**
  Water depth is much deeper than standard tubs for full immersion

- **Maintains water temp /warm to touch**
  Insulating properties keep bath water warmer longer, also warmer to touch and more comfortable than traditional enamel or steel tubs

- **Light weight**
  The average weight of our baths is 140 lbs

- **Sound Absorbing**
  The thick solid construction makes the tub naturally sound-absorbing and quiet

- **RapidDrain ™**
  User can enjoy a deep soak without worrying about spillage

- **DyeIn ™**
  The colors are integrated into the composite material for both interior and exterior of the bathtubs

- **Color matched toe tap drains**
  The toe tap (drain cover) with brass drain assembly is also crafted from Bellocast ™ in the same color as the bathtub. Center drain placement

- **Concealed adjustable feet**
  Stainless steel leveling feet facilitate easy installation and stability

- **Safecoat ™**
  Interior protective coating provides safe and toxic free environment where skin is in contact with the bathtubs

- **UV stable**
  Will not yellow in sun (white bathtubs only)

Duoello ™

Duoello′s unique double slipper silhouette features two elevated ends, creating a spacious and symmetrical shape that invites ultimate relaxation. This design blends classic appeal with modern elegance, making it the perfect setting for rejuvenating soaks, whether solo or shared.Designed with an integral overflow and a color-matched toe tap drain, Duoello bath offers a seamless, elegant look. Perfect for those seeking a luxurious, bold addition to their bathroom. Duoello elevates your space with an unmatched blend of style, comfort, and craftsmanship.
